

You are invited to the following [event](#):

### 9th EUIAI Educational Conference 17th - 19th June 2026

Radisson Blu Olumpia hotel, Tallinn, Estonia

We are delighted to announce that the 2026 EUIAI annual educational conference will be co-hosted by the Estonian Forensic Institute.

Early bird discounted registration fees will be available until April 15th 2026.

#### CONFERENCE DETAILS

There will be workshops presented by our vendors on day 1 of the event. These are included in the registration but are first come first served. Details will be provided very soon.

Workshop 1 - Beta room – 30 people 0930 – 1230

#### **Facial Recognition and Tattoo Analysis Workshop – Applying the ACE V Methodology**

**INTERPOL and IDEMIA Public Security present an interactive workshop for forensic practitioners focused on the ACE V (Analysis, Comparison, Evaluation, Verification) methodology, the foundational framework for forensic identification, applied to facial recognition and tattoo analysis.**

Workshop 2 - Gamma room – 30 people 1000 - 1130

#### **The Future of Fingerprint Collection and Investigation**

- **Intro to Neurotechnology and our solutions: Overview of ABIS, Criminal Investigation, Surveillance, and the 300M solution** 300M, contactless crime scene fingerprint detection and capture
- **Mobile Fingerprint Scanning. Contactless capture using a smartphone camera**

- **Criminal Investigation Software. Processing latent fingerprints and MegaMatcher ABIS searching**

Workshops 1 and 2 will be simultaneous (please only register for one)

Workshop 3 - Gamma room – 30 people 1330 – 1630

### **Facial investigation**

This is a hands on session for participants and will be presented by Daniel Heltemes, Biometrics and Law Enforcement Specialist, Thales

Workshop 4 - Beta room – 30 people 1400-1530

### **Applied Forensic Science: Real-Case Analysis of Falls and Bullet Trajectories**

This workshop provides a practical introduction to the analysis of fall scenarios and bullet trajectories using real forensic cases.

Participants will learn:

- How to document scenes efficiently
- How to perform basic 3D reconstructions
- How to interpret fall dynamics and bullet paths
- How digital tools can support forensic reporting and courtroom presentations The session includes real examples, step-by-step demonstrations, and time for questions.

Workshops 3 and 4 will be simultaneous (please only register for one)

**There are 4 workshops. Workshops 1 and 2 are simultaneous in the morning and Workshops 3 and 4 are simultaneous in the afternoon. Please only sign up for one in each session.**

(maximum of 30 attendees – first come, first served.)

**Conference Day 1 Thursday 18<sup>th</sup> June including EU IAI AGM. 0900 – 1700**

**Keynote Speaker – Professor Turi King**

Her keynote is entitled “Genetics, identifications and identity”.

**Conference dinner - 1900 at the Radisson Blu Hotel Olumpia, Tallinn**

**Conference Day 2 Friday 19<sup>th</sup> June 0830 – 1600**

Presentations include:

- **Immersive Learning: Simulating Multidisciplinary Forensic Decision Making Through Co-Teaching**
- **From Field to Forensics: Multidisciplinary Innovation in the Investigation of the Suure-Lähtru Neonaticide Case**

- · **Study for parameterization of human identification through lofoscopy in the identification of cadavers.**
- · **Enhancement of ridge detail in blood fingermarks using longwave reflected UV (LWRUV) imaging**
- · **Novel Multi-functional Fluorescent Silica Nanoparticles as Latent Fingermark Development Agents: The Roles of Chitosan and Fluorophore in Nanoparticle Performance**
- · **Evaluating the characteristics of deposition material and their effect on blood spatter analysis**
- · **Crime Scene Ballistics Investigation in Firearms Shooting Cases.**
- · **Cyanoacrylate fuming of gelatin lifters for the determination of the deposition order between fingermarks and printed toner**
- · **Facial Comparison and Archaeology – Some remarks on the Olmec Colossal Heads**
- · **Collaborative Partnerships: Shaping the Future of Forensic Science Education and Practice**
- · **Testing in the Swiss Federal Office of Police: challenges and methods**
